To: Attorneys General who are resisting the DOJ settlement with Microsoft

Thank you, thank you, thank you for objecting to the absurdly ineffectual settlement of the Microsoft case that is being proposed by the Department of Justice.

The proposed settlement would do not deter Microsoft from continuing to exercise its monopoly and stamp out its competitors. Mr. Gates will not voluntarily give up his monopoly; it must be taken away from him, and only governments can do that.

Stand fast, for the sake of millions of consumers.

Sincerely,

--
